

NEW PRENATAL TYPE AND SCREEN

Revised with additional **REFLEX Code**: October 9, 2024 (initial notice sent October 7, 2024)

Effective October 15, 2024, Pacific Diagnostic Laboratories (PDL) is introducing new prenatal antibody screen options that include an automatic reflex to antibody identification and titer. These codes are being introduced to improve workflow for prenatal orders and ensure all necessary testing is being completed.

NEW PRENATAL ORDER CODES

- **LAB11023 TYPE AND SCREEN, PRENATAL, REFLEX ID/TITER**
- **LAB11024 ANTIBODY SCREEN, PRENATAL, REFLEX ID/TITER**
- **LAB11025 REFLEX ANTIBODY IDENTIFICATION, PRENATAL, REFLEX TITER**

Action may be needed: Your electronic medical record (EMR), including any custom preference lists and/or laboratory requisitions (including custom panels), may need to be updated to include these codes. Please contact us if you have questions.

Lab Code / Interface Code	Test Name	Test Code	LOINC
LAB11023	TYPE AND SCREEN, PRENATAL, REFLEX ID/TITER	1230119338	34532-2
<i>Result name</i>	<i>Result Code</i>	<i>Result LOINC</i>	<i>CPT</i>
ABO Blood Type	1810065	883-9	86900
Rh Blood Type	1810067	10331-7	86901
Antibody Screen/Coombs, Indirect	1810064	890-4	86850
LAB11024	ANTIBODY SCREEN, PRENATAL, REFLEX ID/TITER	1230119339	890-4
<i>Result name</i>	<i>Result Code</i>	<i>Result LOINC</i>	<i>CPT</i>
Antibody Screen/Coombs, Indirect	1810064	890-4	86850
ADDED	REFLEX ANTIBODY IDENTIFICATION, PRENATAL, REFLEX TITER	1230119340	14575-5
REFLEX TEST: LAB11025			
<i>Result name</i>	<i>Result Code</i>	<i>Result LOINC</i>	<i>CPT</i>

REFLEX TEST: LAB9607	REFLEX ANTIBODY ID/TITER (VITALANT)	1230118038	
<i>Result name</i>	<i>Result Code</i>	<i>Result LOINC</i>	
Antibody ID/Titer	1230017180	14575-5	
Antibody ID/Titer	1230017181	14575-5	
Antibody ID/Titer	1230017182	14575-5	
Antibody ID/Titer	1230017183	14575-5	
Antibody ID/Titer	1230017184	14575-5	

REQUIRED INFORMATION: Specimen labeling, collector information and order need to meet the following criteria to avoid rejections/recollections.

- Specimen labels must include
- Documented and traceable collector/phlebotomist
- Information on the specimen label and the order match

- Patient full name (first and last name)
- Date of birth (DOB)
- Collection date and time
