

PDL Announcement:

Reference Range Update

Albumin/Globulin Ratio

November 10, 2020

WHAT HAS CHANGED:

Effective November 10, 2020, Pacific Diagnostic Laboratories (PDL) has updated the reference ranges for Albumin/Globulin Ratio.

REFERENCE RANGE CHANGE:

TEST NAME	PREVIOUS	NEW EFFECTIVE November 10, 2020
Albumin to Globulin Ratio	1.1 – 2.1	0.9 – 1.8

Please note: Your result report will include a comment to highlight the reference range change.

REASON FOR THE CHANGE:

Reference range evaluations are a key component of the PDL Quality Assurance program and performed on a regular basis. Reference range changes are determined with consideration of the test method in use, the patient population mean, and literature review.
